Interim Management's Discussion & Analysis – Quarterly Highlights

For the Three Months Ended March 31, 2020

Dated: May 28, 2020

Introduction

The following interim Management's Discussion & Analysis ("Interim MD&A") of Manitou Gold Inc. ("Manitou" or the "Company") for the three months ended March 31, 2020 has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management's discussion & analysis, being the Management's Discussion & Analysis ("Annual MD&A") for the fiscal year ended December 31, 2019. This Interim MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since the date of the Annual MD&A.

This Interim MD&A has been prepared in compliance with section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the Annual MD&A, audited annual consolidated financial statements of the Company for the years ended December 31, 2019 and December 31, 2018, together with the notes thereto, and unaudited condensed consolidated interim consolidated financial statements of the Company for the three months ended March 31, 2020, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's unaudited condensed consolidated interim consolidated financial statements and the financial information contained in this Interim MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee. The unaudited condensed consolidated interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, information contained herein is presented as of May 28, 2020, unless otherwise indicated.

For the purposes of preparing this Interim MD&A, management, in conjunction with the Board of Directors (the "Board"), considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of Manitou common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Company and its operations can be obtained from the offices of the Company, its website at www.manitougold.com or from www.sedar.com.

Technical Disclosure

The technical disclosure in this Interim MD&A has been prepared under the supervision of Mr. Richard Murphy, P.Geo. and a "qualified person" within the meaning of National Instrument 43-101. Mr. Richard Murphy is the Chief Executive Officer ("CEO") and President of the Company.

of the Company at an exercise price of \$0.09 until the date which is 3 years from the closing date of the February 2020 Offering. Alamos Gold Inc. ("Alamos") subscribed for 4,520,000 February 2020 Hard Units and Mr. Blair Zarisky, a director of the Company, subscribed for 266,666 February 2020 FT Shares.

In connection with the February 2020 Offering, the Company paid a cash commission and other fees of \$184,362 and issued an aggregate of 2,608,026 broker warrants. Each broker warrant is exercisable to acquire one February 2020 Hard Unit at an exercise price of \$0.06 for a period of 3 years following the closing of the February 2020 Offering.

On February 14, 2020, the Company issued an aggregate of 3,000,000 stock options to a director, an officer and a consultant of the Company. Each stock option entitles the holder to acquire one common share of the Company at an exercise price of \$0.10 until February 14, 2025 and vests immediately.

Mineral Exploration Properties

The Company's exploration activities are at an early stage, and it has not yet been determined whether its properties contain an economic mineral reserve. There are no known deposits of minerals on any of the Company's mineral exploration properties and any activities of the Company thereon will constitute exploratory searches for minerals. See "Risk Factors" below.

Off-Balance-Sheet Arrangements

As of the date of this Interim MD&A, the Company does not have any off-balance-sheet arrangements that have, or are reasonably likely to have, a current or future effect on the financial performance or financial condition of the Company, including, and without limitation, such considerations as liquidity and capital resources.

Proposed Transactions

There are no proposed transactions of a material nature being considered by the Company. The Company continues to evaluate properties and corporate entities that it may acquire in the future.

Discussion of Operations

Financial Performance

Three months ended March 31, 2020 compared with three months ended March 31, 2019

Manitou's net loss totaled \$799,991 for the three months ended March 31, 2020, with basic and diluted loss per share of \$0.00. This compares with a net loss of \$632,968 with basic and diluted loss per share of \$0.01 for the three months ended March 31, 2019. The increase in net loss of \$167,023 was principally because:

- Exploration and evaluation expenditures increased to \$694,676 for the three months ended March 31, 2020 (three months ended March 31, 2019 - \$272,323) due to increased exploration activities in the Goudreau area properties. See "Mineral Exploration Properties" below.
- Option-based payments increased to \$176,000 for the three months ended March 31, 2020 (three months ended March 31, 2019 - \$nil) due to 3,000,000 stock options granted during the period.
- The increase in net loss was partially offset by an increase in flow-through premium income of \$328,400 for the three months ended March 31, 2020 (three months ended March 31, 2019 - \$nil) due to increased flow-through expenditures being incurred during the period.
- All other expenses related to general working capital.

As at March 31, 2020, the Company had assets of \$4,371,886 and a net equity position of \$3,598,521. This compares with assets of \$2,941,552 and a net equity position of \$1,833,554 at December 31, 2019. The Company had \$773,365 of liabilities and no debt (December 31, 2019 – \$1,107,998 of liabilities and no debt).

Liquidity and Capital Resources

The activities of the Company, principally the acquisition and exploration of properties prospective for precious metals, are financed through the completion of equity transactions such as equity

offerings and the exercise of stock options and warrants. There is no assurance that future equity capital will be available to the Company in the amounts or at the times desired by the Company or on terms that are acceptable to it, if at all. See "Risk Factors" below.

The Company has no operating revenues and therefore must utilize its current cash reserves, funds obtained from the issuance of share capital, exercise of warrants and stock options and other financing transactions to maintain its capacity to meet ongoing operating activities. As of March 31, 2020, the Company had 225,175,483 common shares issued and outstanding, 14,350,000 options and 72,887,892 warrants outstanding that would raise \$7,783,711 if exercised in full. This is not anticipated in the immediate future. See "Trends" above.

Total liabilities decreased to \$773,365 at March 31, 2020, compared to \$1,107,998 at December 31, 2019, and consist of amounts that are to be extinguished in due course. The Company's cash and cash equivalents as of March 31, 2020 is sufficient to pay these liabilities.

At March 31, 2020, the Company had working capital of \$3,598,521, compared to \$1,833,554 at December 31, 2019, an increase of \$1,764,967. The Company had cash of \$4,173,473 at March 31, 2020, compared to \$2,744,913 at December 31, 2019, an increase of \$1,428,560. The increase in working capital and cash can be attributed to the private placement done in during the period offset by Company's exploration program and operating expenses.

Cash used in operating activities was \$1,020,398 for the three months ended March 31, 2020. Cash used in operating activities include net loss of \$799,991 for the year, adjusted by option-based payments of \$176,000, flow-through premium income of \$328,400 and a net change in non-cash working capital balances of \$68,007 because of a decrease in amounts payable and other liabilities of \$66,233 and an increase of amounts receivable and other assets of \$1,774.

Cash provided by financing activities was \$2,448,958 during the three months ended March 31, 2020. Cash provided by financing activities include proceeds from issuance of share capital of \$2,633,320, less share issue costs of \$184,362.

The Company did not incur any expenditures relating to investing activities during the three months ended March 31, 2020.

The Company believes that additional financing will be required to fund its current and future plans for the Kenwest and Goudreau area properties as outlined above.

The Company estimates its administrative overhead for fiscal 2020 to be approximately \$800,000. In order to meet the Company's current and future plans for the Goudreau area and Kenwest properties, as well as meet its administrative overhead, for the near term, the Company will be required to complete a financing. Although the Company has been successful in raising funds to date, there can be no assurance that adequate funding will be available in the future, or under terms favourable to the Company. See "Risk Factors" below and "Caution Regarding Forward-Looking Statements" above.

The Company's discretionary activities do have considerable scope for flexibility in terms of the amount and timing of expenditure, and expenditures may be adjusted accordingly.

The receiving company may elect, at its option and sole discretion, to receive up to 50% of the Completion Fee in common shares of the Company at a price per share equal to the deemed price per share applicable in connection with any such completed transaction, as may be applicable and all subject to regulatory approval.

Disclosure of Internal Controls

Management has established processes to provide them with sufficient knowledge to support representations that they have exercised reasonable diligence to ensure that (i) the unaudited condensed consolidated interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements;

and (ii) the unaudited condensed consolidated interim financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"), the Venture Issuer Basic Certificate filed by the Company does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing such certificate are not making any representations relating to the establishment and maintenance of:

- (i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and
- (ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with the issuer's generally accepted accounting principles (IFRS).

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in such certificate. Investors should be aware that inherent limitations on the ability of certifying officers of a venture issuer to design and implement on a cost effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

Outlook

Although there can be no assurance that additional funding will be available to the Company, management is of the opinion if the gold price is favourable, it may be possible to obtain additional funding for its projects. Notwithstanding, the Company is mindful that the gold price could fall with little or no warning.

Due to the worldwide COVID-19 outbreak, material uncertainties may come into existence that could influence management's going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global gold prices;
- Demand for gold and the ability to explore for gold;
- The severity and the length of potential measures taken by governments to manage the spread of the virus, and their effect on labour availability and supply lines;
- Availability of essential supplies, such as water and electricity;
- Purchasing power of the Canadian dollar; or
- Ability to obtain funding.

The Canadian government has not introduced measures which impede the activities of Manitou. Management believes the business will continue and accordingly, the current situation bears no impact on management's going concern assumption. However, it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of Manitou in future periods. The impact on the financial results and condition of Manitou in future periods.

Accordingly, in order to execute the Company's plans for the near term as outlined under the heading "Mineral Exploration Properties" and meet the Company's administrative overhead, it is required to complete a financing. See "Risk Factors".

Risk Factors

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risk Factors" in the Company's Annual MD&A for the fiscal year ended December 31, 2019, available on SEDAR at www.sedar.com.
